NO. 18.

LAWYER ROSS IN TOWN.

WHAT HE SAYS OF THE SOUTHERN PLOPLE-THE NEGROE ARE DOING

Mr. James A Ross, editor of the National Freeman, arrived in the city from Atlanta, Ga. on last Sunday morning over the Richmond and Dan-

He has been in the South in the canvass for Col. Oates, who was recently

elected governor.
Editor Ross is looking well and hearty, and speaks encouragingly of the South and the Southern people. Mr. Ross has done some very effective work in the South, and this is testified to by some of the leading men in the

Among other things, Mr. Ross has this to say :

"I found the condition of the colored people in the South far different from what I had heard I find them as a race far above the Northern colored man in every avenue; as professional men, I find them way above our Northern brother, and one who has lived in the North and travels South would e surprised at the development of the race in wealth and intelligence. find the best opportunity yet offered for

The schools are well conducted in the southland, and they receive their share of the appropriation without any discrimination. The separate school system is in vogue to the interest of the colored race by giving a large number. colored race by giving a large number of appointments to colored educators.

THE UNIVERSITIES AND COLLEGES. The universities and colleges of color are in a most prosperous condition, and we find the gentlemen who fill the various chairs well versed in their various branches, and a large number of stu-dents receive their diplomas each year and enter in the field of honor as lawyers, doctors, pharmaceutical clerks, ministers, civil engineers, architects and every available profession that other races have mastered.

THE WEALTH.

We find the colored people as a race way above the Northern colored man. They pay taxes on at least one-fourth of the taxable properties of the South, and almost sustain their own schools in some States. In Tennessee we find the Afro-American estimated well up in the millions. In Georgia, Alabama, Louisiana, Kentucky and Mississippi he has nothing to complain of from a financial point.

THE SOCIAL LINES.

On this subject I cannot say too much. I found the people the most hospitable that I have ever met. The society in all sections is extremely diplomatic, and it appears that education, wealth and respectability are the requisite for admission.

THE CHURCHES.

In the South we find them in a very prosperous conditio . They own valu-ble properties and are doing much for the education of the race.

NOW YOU ASK ME ABOUT POLITICS. You know that I am out of politics. Well, I must be honest. I found the colored man in some sections support-ing the democratic party in large num-bers. I speak locally. In Alabama, had not the negroes supported Colonel Oates, he would have been defeated. In Georgia, I am compelled to say that at least 20 per cent of the colored men supported Col. Atkinson, insuring his

election by 30,000. I MUST SAY YES.

I found the regular democrats the best friend to the negro. When there is a favor to be granted it is to that class of men that they must look to. The populist party is composed of the poor class of white men who have nothing to give and if they did they would not grant it They are made up of that class of men who compose the lynchings and lawless element as a class,

The best element of the colored men supported the organized democracy, and as I am out of politics I do not care to talk politics at this time.

THE HOME RULE CLUB.

It is to the interest of every citizen to organize, to protect his life, property, etc. A movement suggested by the BEE some time ago to organize a Home Rule Club in every legislative district seems to be developing.

THE FREEDMEN'S HOSPITAL

DR. FRANCIS, ACTING SURGEON IN CHARGE, MAKES THE REPORT.

The annual report of Freedman's Hospital, prepared by Dr. John R. Francis, acting surgeon-in-chief, owing to the illness of Dr. Williams, was submitted to the Commissioners yesterday by Col. Tracey, superintendent of char-ities. The report contains some interesting statistics regarding the opera-tions of the institution. The whole

Some knowledge of the truth of this statement may be had by consideration of table B. There it will be seen that a large number die from simple neglect, and their first treatment,

Never cut off your nose to spite in the majority of cases, is received only after admission to the hospital." Further on the report says:
"I regret to note that there is a disposition to saddle the hospital upon the District of Columbia 1 question both the wisdom and the justice of this policy. The hospital, from its beginning, has been, and still is, a national institution. It is not just to the people of the District to compel them to pay one-half of the expanse, as pa ien's are received from all over the country, and a large percentage of the inmates are of the soldier element.

A LIBERAL ORGAN OFFER.

That there has been a revolution in the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufacturers of Washington, N. J. For the next 60 days they offer to sell an organ for \$42.50, which a short time ago would have been considered a desirable bargain at \$75.00. With this they offer terms of credit that are sure to meet with the approval of every fair-minded person. Cornish & Co. are the largest makers of Pianos and Organs in the world selling direct from the factory to the home. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of selling instruments through agents and dealers, their plan being to give the enormous profits usually retained by the tradesman to the buyer. Their efforts to place first class instruments within the reach of all, at manufacturer's prices and the most liberal terms, deserves the highest commendation. Every one who is contemplating the purchase of an Organ or Piano, should get the cotalogue issued by this firm. It illustrates and describes all the latest and best designs of Organs and Pianos with prices and special offers that are with prices and special offers that are sure to prove profitable. They general ly offer to send to it free to all whowrite and mention the BEE.

-For the first time in his literary career Jerome K. Jerome is about to write directly for an American audience. This work consists of a series of papers similar in vien to his "Idle Thoughts of an Idle Fellow," but addressed to American girls and women. The articles will begin shortly in "The Ladies' Home Journal," which periodical will print the entire series.

-Bret Harte is writing a story of American life and incident for "The Ladies! Home Journal.

"Only a thousand dollars' worth, was the bishop's reply. He said the country was laboring under & great mistake when it supposed that he was begging people to go Africa. But the man above all others who would stir the colored voters from one end of the Nation to the other is Justice Harlan, of the Supreme Court, whether he was nominated by the Democratic or Republican party. And the negro who would not work and vote for him ought to be hung, unless he was a known fool."

Bishop Turner among other things says that the representatives of the race are "a few prominent accidents."

The distinguished bishop ought to know that it was by accident that he was made a Bishop.

He forgets that the record of the old man eloquent or the sage of Anacostia stands equal to any American citizen. Fred. Douglass, B. K. Bruce, John R. Lynch, John as hard as well as amusing to the BEE M. Langston and others have done to put things in their proper shape. Re admits bimself that he has a thousand dollars invested in the steamer that is to convey Negroes to Africa. The Bishop is more prejudiced and jealous of these men than he is interested in the emigration of Negroes to Africa.

THE AMERICAN LIBERTY DE-FENCE LEAGUE

R. C. O. Benjamin, President. J. B. Colbert, Vice-President. James E. Johnson, Secretary. J. H. Ballou, General Counsel. George Henry, Treasurer.

The international agitation now go ing on in regard to outrages committed upon colored Americans in the Southern states, renders imperative the organization of the American Liberty Defence League. In order to aid this agitation, broaden and make thorough-ly effective the work of the International Committee already appointed to investigate the matter, this League is formed.

The work which the League has undertaken is:

1st To encourage and assist Miss Ida B, Walls in her anti-lynching crusade by seizing the opportunity while public attention is directed to the subject to keep some one in the field to agitate and emphasize our demand for justice.

3rd. To keep detectives in the field to investigate every lynching, get the Negro side of the stories, and the real facts for our Euglish friends, our Northern sympathizers, and for ourselves; to employ counsel to defend those charged with heinous offences, and secure the conviction and punishment of these type participate in lynch ment of those who participate in lynch-

Never since the agitation of the abo-

lition of American slavery has there een a period fraught with su consequences, as now confront the friends of humanity and believers in free government, as is now involved in the issue before the American people, raised by the Anti-Southern-Outrage Crusade; an issue with which the Crusside; an issue with which the American people must deal and settle once for all. The abominable cruelties of mob law and lynching have become National problems, and it seems that the time has come when every good cit-izen must enter his protest against the exhibition of this violent barbarity, asert themselves, exert their best deavor to maintain the dignity and majesty of the law, and demonstrate to

THE END IN VIEW.

the civilized world that the American

To the end that this agitation may be nducted in such a way as that full ight may be thrown upon all the facts involved, we propose to org nize around the League a sustaining constituency to do the proper work. For instance: Two colored men, near Alexandria, Virginia, were charged with the crime of assault on two white women. They were arrested and placed on trial; the case was prejudged by the community, and a mob of armed men organized to overawe the court and jury, and deny to the accused the right of a fair trial The State militia were ordered out to convey the two colored men to and from the court-house, the result was the execution of the men without any legal evidence of their guilt. All this hap-pened under the very shadow of the National Capital. If the American Liberty Defence League had been in existence, the case, instead of being one of local color-line-Democratic-politics, would have assumed national proportions; a fair trial secured to the accused; the ablest legal ability at the Northern bar would have been employed to defend the men; reporters from the Metropolitan press especially commissioned would have been present. Able and experienced detectives, thoroughly skilled in ferreting out all hid-den motives and facts in regard to crime, would have been employed to aswho were the accusers, whether or not criminally intimate with any members would in all probability have turned out very different. The purpose of this League is to apply all over the South the principles and policy of such a vigilant and tireless activity as to render the repetition of the Virginia infamy

The League also proposes to furnish indisputable testimony, that, while allowing for the ferocity born of the spirit of slavery, nevertheless, the animating notive and significance of these South ern outrages is Political. The political motive and incentive to these outrages does not embrace merely local politics; it does not mean alone the election of 'color-line" Justice of the Peace, colorline sheriff, color line educational com mittee, color line members of the legis lature, color line governors and like lo-cal and State officers,—it embraces the whole field of national political action. It embraces 159 solid votes in the electoral college. It embraces a color line legislative majority in both branches of Congress It embraces a color line president of the Uni'ed States. It emoraces a solid South representation as such in his cabinet. It embraces a representation in the United States Sueme Court, where color South judges will hold the same relation to Negro suffrage which Judge Taney of the Dred Scot and Missouri compro mise, held to chattle slavery and solid reared, from Missouri to Florida and pu'lic i self. For tyranny through law cannot be enthroned upon the pro trate form of black humanity at the South without so affecting and deadening the National conscience as finally to set the heel of a relentless military despotism on the necks of the white wage slaves

We earnestly request persons desiring to aid in this work to join together and organize leagues. Constitutions and by laws will be furnished on application to the president or sections of the League. retary of the League.

AN OFFER. Will the colored people of Washington maintain one properly-conducted news-paper, managed by men of the race? We believe they will do so. Financially they are able to support two or more journals devoted to the best interests of the race. But will they maintain one? The BEE has been published now for

nearly fifteen years as an experiment in colored journalism. Longer than any of its contemporaries now in the field But the time has now arrived to make it a real wide-awake, newsy and interesting medium of advanced journalism, and we want the support of the entire colored reading public of the District of Columbia. MR. ROSS ON THE SOUTH. The BEE has heard so much of the South and the Southern white reople that it took occasion to ask Mr. Jame A. Ross, a prominent negro democrat

to give his views concerning the South

and the Southern white people, and whether it is true that the South and Mr. Ross readily consen'ed, and in another column, the Bee prints what Mr. Ross has to say.

Typographically it is first-class.

Editor Astwood proposes to make his paper national and simon pure Republican. Miss Gussie Moore, the expert typewriter of this city and a very talented young lady, is the treasurer and manager. This is the second lady who has the distinction of

managing a newspaper. Miss Astwood, the amiable daughter of Mr. Astwood is also one of the lady clerks in the office, and there is no reason that the "Defender" can not be a success.

GEORGE GOULD.

He Thinks the English Nice, But America Is Good Enough. New York, Oct. 8 .- George Gould re-

turned from Europe Saturday on the American liner New York. He was accompanied by Mrs. Gould and four children. He says he was treated splendidly over in England, and found the Prince of Wales an exceptionally fine type of English gentleman and a thorough sportsman. The yacht clubs all treated him royally. In regard to the loss of the Vigilant's centre-board, he considered it due to a lack of judg-ment on the part of the pilot, but had no fault to find. He thinks the Vigilant a better rough weather boat than the Britannia, but has no idea of selling her. Neither did he have any intention of following in the lead of Astor by purchasing an English estate. He says America is good enough for

Marquette, Mich., Oct. 8. - The annual slaughter of deer in the upper peninsula has begun. Over 250 carcasses were shipped from this county for Chicago, Detroit and other cities. This killing of scarce animals is in direct violation of the game laws of the State, because they are chased with dogs and lanterns and slaughtered without purpose. Woods are thick with hunters at night, who shoot with utter recklessness. Half a dozen set-tlers have been wounded by stray shots. An effort will be made to bar these hunters out of the State.

Oliver Wendell Holmes was born in Cambridge, Mass., August 29, 1809. He was the third of the five children of Abiel Holmes, a clergyman and an author of great eminence. He was prepared for college at Philips-Andover Academy, where he made his first at-tempt at versification from the first book of the Aeneld in heroic couplet. He was graduated from Harvard in 1829. He gained a reputation by his lyrical protest, beginning "Ay, Tear the Battered Ensign Down," when it was proposed to break up the old frigate Constitution. He studied law for a year, then studied medicine, and spent three years in Paris. He was professor of anatomy and physiology at Dartmouth and at Harvard. In 1840 he married Amelia Lee, daughter of Judge Charles Jackson, of the Supreme Court of Massachusetts. was one of the most famous of American authors successful in every kind of literature. His most brilliant and popular work is in "The Autocrat of the Breakfast Table," while his longest lived is probably in his poems. His own favorite among the series of poems is said to be "The Chambered Nautilius," but "The Voiceless" and several of his patriotic poems rank with it. A Man and Wife Found Dying in Their

Middletown, N. Y., Oct. 8.—A mysterious murder and suicide, or double murder, occurred in this city yesterday. John Tierney was found with a bullet hole in his right temple. His wife was lying near him, with a bullet hole in her left breast, while a pistol lay a few feet away. The affair occurred in a cafe owned and conducted by Mrs. Tierney. An aged uncle, Robert Flynn, awoke at 6:30 yesterday morning and went downstairs to the kitchen in the basement and built a fire. While thus engaged he heard a report, which did not seem to him, he said, like that of a pistol, and the fall of a body. A moment later it was followed by another report. Shortly afterwards Mrs. Tierney's son Thomas, who is said to have been as eep on a sofa in the kitchen, went up and found two dead bodles. What at first appeared to be a murder and suicide now looks to the authorities like double murder. Tierney married Mrs. McGuire, a widow with one son, Thomas, five weeks ago. Thomas was very angry at the marriage, and left the house for two weeks. About the time of the marriage he took a 44-calibre British bulldog revolver and threw it behind a trunk in a closet in his bedroom. He claims that no one knew it was there but himself. Mrs. Tierney owned a cafe which, previous to her marriage, it was believed, would go to Thomas when she died. This was not likely, however, after she married Terney.

EX-GOV. CURTIN DEAD His End Calm and Peacaful Befitting J. A. Lewis,

His Career.

Bellefonte, Pa., Oct. 8.—Ex-Gov. Andrew G. Curtin died at 5 o'clock yesterday morning. His end was peaceful, he having been unconscious dur-ing the last twelve hours of his life. All the members of his family were at the bedside when he passed away. Mr. Curtin had been in feeble health for some weeks, but his condition grew serious on Thursday last, and from that time he sank rapidly. Death was caused by old age—the Governor being in his eightieth year—combined with nervous trouble, which, upon reaching the vital point in the brain, ended his life. Gov. Curtin was renominated and re-elected by 15,000 majority. He went to Cuba for his health in November, 1865, and in the same year declined a second offer of a foreign mis-sion. In 1869 Gen. Grant appointed him Minister to Russia. He returned from Russia in 1872 and supported Horace Greely for the Presidency. Subsequently he joined the Democratic party, by which he was elected to Congress for three successive terms, serv-

ing from 1881 to 1887. It has been decided at the urgent request of Gov. Pattison to bury ex-Gov. Curtin with a military escort.

COMMITTEE OF SEVENTY.

They Nominate a Ticket to Which Objections Are Raised.

New York, Oct. 8,-The adjourned meeting of the Committee of Seventy in conference with the State Democracy, the regular Republicans, the O'Brien Democrats, the Independent County Democrats, the Confederated Good Government Clubs and the German-American reformers, was resumed in the assembly hall of the Charities Organization Building Friday after-Chairman Beaman read Mr. Goff's letter declining a nomination, and made a brief address, in which he dilated on the necessity of the sinking of all partisanship, and presented the following ticket: For Mayor, Col. W. L. Strong; for Recorder, John W. Goff; for President of the Board of Aldermen, John Jeroloman: for Judge of the Superior Court, Henry R. Beckman; for Sheriff, Otto Kempner; for Coroners, Dr. William O'Meagher, Dr.

Francis M. Scott, of the Grace De mocracy, objected to the ticket, and declared that no ticket headed by a Republican could win against Tam-many, even if endorsed by all the anti-Tammany organizations. Mr. Scott came to the climax by saying he thought it inadvisable for his organization to accept the ticket. Theodore Sutro, for the German reformers, said: "Our sole aim has been to strike down Tammany Hall. We are thankful for small favors received, but cannot rec ommend any of these nominations to our organizations. There is nothing left for us to do but to report back to our general committee." Delegate Brady, of the O'Brienites, said that the nominations for Mayor and Recorder have met with entire disapproval from his organization.

He Sends a Letter to Hon. J. W. Hinck-

ley to This Effect. Brooklyn, Oct. 8 .- Judge Gaynor has sent a letter to Hon. J. W. Hinckley declining to run on the State ticket as candidate for Judge of the Court of Appeals. He says the reasons which he assigned for not wishing to become the nominee for Governor precluded him from accepting another place on the ticket. In the course of his letter he says:

"I am not without feeling and I cannot refrain from acknowledging a vibration of pain that organizations avowedly working unselfishly for high political methods and for better government should affirmatively refuse to endorse my nomination in advance of my acceptance or refusal. If I thought withdrawal of my name would injure Senator Hill's canvass I would try to see some way to allow it to remain, for his recent development in the National Senate places him with the foremost public men of the day. Between him and his opponent he should, and I trust will, prevail."
